Pursuant to the relevant orders entered by the United States Bankruptcy Court for the Western District of Texas, Austin Division, you previously received and cashed a distribution check for 9.7% of your allowed claim amount. A number of the distribution checks issued at the end of June have been unclaimed and/or uncashed, which has provided additional funds available for a supplemental distribution to all claimants who timely cashed their first distribution check. This supplemental distribution check will provide an additional 6.1% dividend on your approved claim amount for a total dividend of 15.8%.

Please note that this check will be void if not cashed within 90 days from this date; however, you are encouraged to cash it immediately upon receipt.
